PROFILE

I have over 16 years of experience in IT. My Background is in IT but working in different industries. I am a team player with excellent communication skills in Spanish and an advanced level of English.

I have 8 years of experience managing international projects with project management methodologies and I have applied them to several projects and experience with global teams and multi stakeholders.

I aim to manage Global Projects applying my knowledge and experience, as Service Manager, Project Manager or IT management in general.
